PROFESSIONAL SUMMARY

Business Analyst from IIT Bombay with 2+ years of experience delivering data-driven solutions for government agencies and international organizations. Expertise in stakeholder management, requirements gathering, geospatial analytics, and translating business problems into actionable insights. Proven track record of driving measurable impact through analytics, process optimization, and cross-functional collaboration in large-scale public sector projects.

EDUCATION

Indian Institute of Technology (IIT) Bombay

Jul 2022 - Jul 2024

Master of Technology (M.Tech.) - Technology and Development | CPI: 8.09/10

TECHNICAL SKILLS

- **Business Analysis:** Requirements Gathering, Stakeholder Management, Process Mapping, Gap Analysis, Solution Design, UAT, KPI Development
- **Analytics & Tools:** SQL, Python (Pandas, NumPy), Tableau, Power BI, Advanced Excel, Statistical Analysis, A/B Testing
- **Domain Skills:** Geospatial Analysis (QGIS), Predictive Modeling, Data Visualization, Business Intelligence, Performance Metrics
- **Technical:** PostgreSQL, MySQL, ETL Pipelines, API Integration, Git, Agile/Scrum, Docker, REST APIs

PROFESSIONAL EXPERIENCE

World Food Programme (WFP), India | Research Associate (RAM & Evaluation Unit)

Sep 2025 – Present

- Led geospatial regression analysis on **700+** districts identifying 32 significant malnutrition determinants, enabling **targeted intervention** design for national nutrition programs worth **₹500+ crores**
- Executed hierarchical clustering segmenting 700+ districts into 3 malnutrition typology groups, providing Ministry stakeholders with **evidence-based framework for resource allocation improving efficiency by 40%**
- Created 40+ thematic maps and executive **dashboards in QGIS**, facilitating **data-driven policy** discussions with Government officials
- Designed **Statistical Analysis Plan** for rice fortification RCT evaluating 5,000+ beneficiaries with sample size calculations and longitudinal frameworks, influencing national policy scale-up decisions
- Conducted literature review synthesizing 50+ biofortification studies, developing district typology methodology used in Ministry-level advocacy and strategic planning
- Presented analytical findings to Ministry officials and WFP leadership, translating complex insights into **actionable recommendations for program implementation**

Ministry of Agriculture and Farmers Welfare | Research Associate

Feb 2025 – Sep 2025

Reported to Additional Secretary (IT Division), leading digital transformation and solution development for agricultural extension services

AI-Powered Query Resolution System for Agricultural Extension

- Led end-to-end requirements gathering and solution design reducing farmer advisory response time by 85% (24 hours → 2 minutes), **improving operational efficiency** across divisions
- Conducted **stakeholder interviews** with 20+ agricultural officers documenting pain points and user journeys, translating **business needs into functional specifications**
- Architected knowledge management system processing 50+ government documents achieving 92% query resolution accuracy through optimized retrieval strategies
- Developed **business case** demonstrating 60% cost reduction and ₹25 lakhs annual savings, securing leadership buy-in for digital platform serving 10,000+ farmers monthly
- Presented solution demos to **Additional Secretary** incorporating feedback into iterative development, and conducted UAT with field officers ensuring smooth adoption

Soybean Image Classification System

- Designed analytics solution analyzing 1 lakh+ field images with 96% accuracy, enabling early disease detection reducing estimated crop loss by 15-20%
- Performed **comprehensive data analysis** on imbalanced datasets (1:4 ratio), implementing sampling strategies and validation frameworks improving model generalization
- Created executive dashboards visualizing disease prevalence patterns, geographic hotspots, and seasonal trends for **policy planning and resource deployment**
- Developed training materials for 100+ agricultural extension officers, facilitating adoption of **analytics-driven decision making**

iNDX.Ai | Full Stack Developer

Jul 2024 – Dec 2024

Full Stack Web Application Development

- Gathered and documented business requirements from stakeholders, translating them into functional specifications and database schemas for development teams
- Designed data flow diagrams optimizing PostgreSQL database management and query performance, improving system efficiency by 25%
- Collaborated with cross-functional teams building user-centric features (authentication, role-based access, recommendation systems), improving user satisfaction by 30%
- Conducted gap analysis and recommended technical solutions, creating **API documentation** and process SOPs for development workflows
- Participated in agile sprints facilitating requirement refinement sessions and prioritizing backlogs based on business value

KEY ANALYTICAL PROJECTS

Sentiment Analysis | IIT Bombay

Apr 2023 - Jun 2023

- Designed NLP solution analyzing 99,000+ social media posts achieving 78% accuracy for **brand perception monitoring**
- Conducted exploratory data analysis and text preprocessing improving data quality by 35%, providing **insights for brand positioning strategy**
- Tech Stack: Python, TensorFlow, NLTK, Pandas, Data Visualization

Financial Forecasting & Market Analysis | IIT Bombay

Jan 2023 - May 2023

- Developed **time-series forecasting models** for NIFTY-50 achieving R² of 0.84 using LSTM architecture
- Created technical indicators (RSI, MACD, moving averages) and feature engineering pipeline from Yahoo Finance API
- Evaluated multiple models (LSTM, SVR, Ridge, RF) using MAE, MSE, RMSE metrics for **investment decision support**
- Tech Stack: Python, TensorFlow, Scikit-learn, Pandas, yFinance

LEADERSHIP & IMPACT

Associate Placement Coordinator (Initiatives) | IIT Bombay Placement Team

Sep 2022 - Dec 2022

Collaborated in cross-functional team of 300+ members managing placements for 2,100+ students, demonstrating strong project management and stakeholder coordination:

- **Quantitative Analysis:** Analyzed 3 years of placement data to redesign interview allocation model, improving Day-1 selections by **14%**
- **Process Optimization:** Identified bottlenecks in resume verification saving **150+** man-hours; automated shortlist tracking saving **70+** hours
- **A/B Testing:** Designed sector-specific mock assessments achieving **80%+** satisfaction and **68%** participation increase
- **Policy Design:** Reformed compensation categorization through **statistical analysis** of job offers, resolving placement disparity issues
- **Negotiation:** Secured partnerships with test prep platforms benefiting **1,500+** students

CERTIFICATIONS & ACHIEVEMENTS

- **Certificate of Excellence** - Associate Placement Manager, IIT Bombay Placement Office (2022)
- **Gold Medal** - Carrom, Hostel General Championship, IIT Bombay (2022)
- **AIR 32** - Secured All India Rank 32 in GATE(AG)-2022, placing within the top 1% of the total student appeared

Key Strengths: Stakeholder Communication | Data Storytelling | Cross-functional Collaboration | Business Acumen | Problem Solving

Hobbies: Reading blogs on AI advancement, Playing cricket and carrom, Watching Anime
